Immune response of lambs to experimental infection with Orf virus 321

SUBJECT INDEX

Actinobacillus pleuropneumoniae
Comparison of protective immunity and inflammatory responses of pigs following immunization with different *A. pleuropneumoniae* preparations with and without adjuvants 175
Bovine leukemia virus (BLV)
Expression of the BLV transactivator protein p34 by a recombinant virus 201
Tumor-associated antigen on BLV-induced bovine lymphosarcoma 213
Immunohistological demonstration of virus and tumor associated antigens in tissues in experimental and spontaneous BLV infection 223
BLV-induced leukemia–lymphosarcoma complex in sheep 233
Chemotherapy and immunotherapy of bovine leukosis 245
Natural mode of horizontal transmission of BLV: role of tabanids 255
Cross-reactive antibodies to BLV and HTLV in bovine and human hosts with retrovirus infection 265
Comparison of the agar gel immunodiffusion test and ELISA in the detection of BLV antibody in cattle persistently infected with BVDV 275
Use of milk samples and monoclonal antibodies directed against BLV-p24 to identify cattle infected with BLV 283
International comparison of different laboratory tests for the diagnosis of bovine leukosis: suggestions for international standardization 293
Implication of BLV infection in the productivity, reproductive capacity and survival rate of a dairy cow 299
Bovine respiratory syncytial virus (BRSV)
Priming for local and systemic antibody memory responses to BRSV: effect of amount of virus, virus replication, route of administration and maternal antibodies 145
Bovine virus diarrhoea virus (BVDV)
Comparison of the agar gel immunodiffusion test and ELISA in the detection of BLV antibody in cattle persistently infected with BVDV 275
Bursa of Fabricius
Distribution and function of non-lymphoid cells positive for monoclonal antibody CVI-ChNL-68.2 in healthy chickens and those infected with Marek's disease virus 123
Cattle
Characterization of surface markers of gut mucosal leukocytes using monoclonal antibodies 1
Serum IgG and IgM antibody response to antigens of *Pasteurella haemolytica* 53
Peanut agglutinin (PNA): binding and stimulation of intestinal and peripheral blood leukocytes 67
Sepracell-MN for mononuclear cell separation fom cattle: effect on mitogen- and antigen-induced lymphocyte blastogenesis 79
Priming for local and systemic antibody memory responses to BRSV: effect of amount of virus, virus replication, route of administration and maternal antibodies 145
Negative enrichment of T lymphocytes with monoclonal antibodies and magnetic microspheres 161
Tumor-associated antigen on BLV-induced lymphosarcoma 213
Immunohistological demonstration of virus and tumor associated antigens in tissues in experimental and spontaneous BLV infection 223
Chemotherapy and immunotherapy of bovine leukosis 245
Natural mode of horizontal transmission of BLV: role of tabanids 255

Cross-reactive antibodies to BLV and HTLV in hosts with retrovirus infection 265
Comparison of the agar gel immunodiffusion test and ELISA in the detection of BLV antibody in cattle persistently infected with BVDV 275
Use of milk samples and monoclonal antibodies directed against BLV-p24 to identify cattle infected with BLV 283
International comparison of different laboratory tests for the diagnosis of bovine leukosis: suggestions for international standardization 293
Implication of BLV infection in the productivity, reproductive capacity and survival rate of a diary cow 299
Identification of two independent MHC class II antigens in a lymphoblastoid cell line 307
Infection of monocyte/macrophage populations with *Theileria annulata* and *Theileria parva* 355
Recombinant bovine interferon-gamma enhances expression of class I and class II bovine lymphocyte antigens 379

Chicken
Distribution and function of non-lymphoid cells positive for monoclonal antibody CVI-ChNL-68.2 in healthy chickens and those infected with Marek's disease virus 123
Comparison of *Mycoplasma gallisepticum* subunit and whole organism vaccines containing different adjuvants by western immunoblotting 135
Associations of genetics and sampling time with levels of interleukin-2 activity 333

Degenerative joint disease (DJD)
Synovial fluid proteins in DJD in dogs 187

Dog
Effect of immunotherapy on the serum concentrations of allergen-specific IgG antibodies in sera 39
Detection of antiplatelet immunoglobulin in thrombocytopenic dogs 101
Synovial fluid proteins in degenerative joint disease 187

Genetics
Expression of the bovine leukemia virus transactivator protein p34 by a recombinant vaccinia virus 201

Human T cell leukemia virus
Cross-reactive antibodies to BLV and HTLV in bovine and human hosts with retrovirus infection 265

Immunoglobulins
Significance of Freund's adjuvant/antigen injection granuloma in the maintenance of serum antibody response 15
Effect of immunotherapy on the serum concentrations of allergen-specific IgG antibodies in dog sera 39
Serum IgG and IgM antibody response in cattle to antigens of *Pasteurella haemolytica* ... 53
Detection of antiplatelet immunoglobulin in thrombocytopenic dogs 101
In vitro modulating effects of porcine IgG on mitogens-induced lymphocyte response in precolostral, suckling and weaned piglets 113
Priming for local and systemic antibody memory responses to bovine respiratory syncytial virus: effect of amount of virus, virus replication, route of administration and maternal antibodies 145
Synovial fluid proteins in degenerative joint disease in dogs 187
Use of milk samples and monoclonal antibodies directed against BLV-p24 to identify cattle infected with bovine leukemia virus (BLV) 283
International comparison of different laboratory tests for the diagnosis of bovine leukosis: suggestions for international standardization 293

Interferon
Recombinant bovine interferon-gamma enhances expression of class I and class II bovine lymphocyte antigens 379
Interleukin
Negative enrichment of bovine T lymphocytes with monoclonal antibodies and magnetic microspheres 161
Associations of genetics and sampling time with levels of interleukin-2 activity 333
Effect of human recombinant interleukin-2 on the porcine immune response to a pseudorabies virus subunit vaccine 345
Intestine
Characterization of surface markers of bovine gut mucosal leukocytes using monoclonal antibodies 1
Peanut agglutinin (PNA): binding and stimulation of bovine intestinal and peripheral blood leukocytes 67
Immunohistological demonstration of virus and tumor associated antigens in tissues in experimental and spontaneous bovine leukemia virus (BLV) infection 223
Liver
Distribution and function of non-lymphoid cells positive for monoclonal antibody CVI-ChNL-68.2 in healthy chickens and those infected with Marek's disease virus 123
Lung
Activated porcine alveolar macrophages: are biological response modifiers the answer? ... 91
Comparison of protective immunity and inflammatory responses of pigs following immunization with different *Actinobacillus pleuropneumoniae* preparations with and without adjuvants 175
Effect of immunosuppression on resistance to *Rhodococus equi* in mice 369
Lymphatic nodules
Chemotherapy and immunotherapy of bovine leukosis 245
Lymphoblastoid cell line, BL3
Identification of two independent MHC class II antigens in a bovine lymphoblastoid cell line 307
Lymphoblasts
Associations of genetics and sampling time with levels of interleukin-2 activity 333
Lymphocytes
Characterization of surface markers of bovine gut mucosal leukocytes using monoclonal antibodies 1
Lymphocyte reactivity to mitogens and natural killer cell activity in crossbred swine during the reproductive cycle 29
Peanut agglutinin (PNA): binding and stimulation of bovine intestinal and peripheral blood leukocytes 67
Sepracell-MN for mononuclear cell separation from cattle: effect on mitogen- and antigen-induced lymphocyte blastogenesis 79
In vitro modulating effects of porcine IgG on mitogens-induced lymphocyte response in precolostral, suckling and weaned piglets 113
Negative enrichment of bovine T lymphocytes with monoclonal antibodies and magnetic microspheres 161
Tumor-associated antigen on bovine leukemia virus-induced bovine lymphosarcoma 213
BLV-induced leukemia–lymphosarcoma complex in sheep 233
Comparison of the agar gel immunodiffusion test and ELISA in the detection of BLV antibody in cattle persistently infected with BVDV 275
Immune response of lambs to experimental infection with Orf virus 321
Associations of genetics and sampling time with levels of interleukin-2 activity 333

Recombinant bovine interferon-gamma enhances expression of class I and class II bovine lymphocyte antigens 379
Lymphosarcoma
Tumor-associated antigen on BLV-induced bovine lymphosarcoma 213
BLV-induced leukemia–lymphosarcoma complex in sheep 233
Macrophages
Activated porcine alveolar macrophages: are biological response modifiers the answer? ... 91
Infection of bovine monocyte/marcrophage populations with *Theileria annulata* and *Theileria parva* 355
Effect of immunosuppression on resistance to *Rhodococcus equi* in mice 369
Major histocompatibility complex
Characterization of surface markers of bovine gut mucosal leukocytes using monoclonal antibodies 1
Indentification of two independent MHC class II antigens in a bovine lymphoblastoid cell line 307
Recombinant bovine interferon-gamma enhances expression of class I and class II bovine lymphocyte antigens 379
Marek's disease virus
Distribution and function of non-lymphoid cells positive for monoclonal antibody CVI-ChNL-68.2 in healthy and infected chickens 123
Monocytes
Negative enrichment of bovine T lymphocytes with monoclonal antibodies and magnetic microspheres 161
Infection of bovine monocyte/macrophage populations with *Theileria annulata* and *Theileria parva* 355
Mononuclear cells
Sepracell-MN for mononuclear cell separation from cattle: effect on mitogen- and antigen-induced lymphocyte blastogenesis 79
Identification of two independent MHC class II antigens in a bovine lymphoblastoid cell line 307
Mouse
Effect of immunosuppression on resistance to *Rhodococcus equi* 369
Mycoplasma gallisepticum
Comparison of subunit and whole organism vaccines containing different adjuvants by western immunoblotting 135
Natural killer cells
Lymphocyte reactivity to mitogens and NK cell activity in crossbred swine during the reproductive cycle 29
Nocardia rubra
Chemotherapy and immunotherapy of bovine leukosis 245
Orf virus
Immune response of lambs to experimental infection 321
Pasteurella haemolytica
Serum IgG and IgM antibody response in cattle to antigens of *P. haemolytica* 53
Pig
Lymphocyte reactivity to mitogens and natural killer cell activity in crossbred swine during the reproductive cycle 29
Activated porcine alveolar macrophages: are biological response modifiers the answer? ... 91
In vitro modulating effects of porcine IgG on mitogens-induced lymphocyte response in precolostral, suckling and weaned piglets 113

Comparison of protective immunity and inflammatory responses following immunization with different *Actinobacillus pleuropneumoniae* preparations with and without adjuvants 175
Effect of human recombinant interleukin-2 on the porcine immune response to a pseudorabies virus subunit vaccine 345
Pseudorabies virus
Effect of human recombinant interleukin-2 on the porcine immune response to a subunit vaccine 345
Respiratory disease
Activated porcine alveolar macrophages: are biological response modifiers the answer? ... 91
Respiratory tract
Priming for local and systemic antibody memory responses to bovine respiratory syncytial virus: effect of amount of virus, virus replication, route of administration and maternal antibodies 145
Rhodococcus equi
Effect of immunosuppression on resistance in mice 369
Sheep
Significance of Freund's adjuvant/antigen injection granuloma in the maintenance of serum antibody response 15
BLV-induced leukemia–lymphosarcoma complex in sheep 233
Immune response of lambs to experimental infection with Orf virus 321
Spleen
Distribution and function of non-lymphoid cells positive for monoclonal antibody CVI-ChNL-68.2 in healthy chickens and those infected with Marek's disease virus 123
Synovial fluid
Synovial fluid proteins in degenerative joint disease in dogs 187
Tabanus sp.
Natural mode of horizontal transmission of BLV: role of tabanids 255
Theileria annulata
Infection of bovine monocyte/macrophage populations 355
Theileria parva
Infection of bovine monocyte/macrophage populations 355
Thrombocytopenia
Detection of antiplatelet immunoglobulin in thrombocytopenic dogs 101
Thymus
Tumor-associated antigen on bovine leukemia virus-induced bovine lymphosarcoma 213
Trichophyton verrucosum
Implication of BLV infection in the productivity, reproductive capacity and survival rate of a dairy cow 299
Vaccinia virus
Expression of the bovine leukemia virus transactivator protein p34 by a recombinant vaccinia virus 201
